Manufacturer and Worldwide Distributor of Air Cleaning Systems for 30 years.

SUPPLYING CLEAN AIR TO HEALTH CARE

FEATURES

INDEPENDENT LAB TESTED

Unlike some units where just the filter is tested to HEPA efficiency, the XJ-2 was independently lab tested in its entirety to be 99.999% efficient on 0.3 micron particles.

QUIET:

The XJ-2's Quiet operation design features include a backward curved, dynamically balanced impeller and a sound dampening blower baffle to reduce sound levels to a minimum.

EFFECTIVE FILTRATION TECHNOLOGY:

The XJ-2's certified HEPA air filter is highly effective in removing microorganism-sized particulate. The 3M Filtrete™ prefilter protects the HEPA filter reducing maintenance costs. Provides 12 air changes per hour, enough for most hospital rooms.

EASY INSTALLATION:

The XJ-2 is shipped fully assembled and ready for roll in installation.

ACCESSORIES:

- Room Pressure Monitor (07132)
- Security Cover (07131)
- Wall Mounting Kit (07130)
